

Features

# Compact & Universal

Body Material

# Stainless Steel

Compression Load Cell (TC-FR) / Tension Load Cell (TT-FR)

### Benefit

Easy to install on the existing facilities/systems.

### Vacuum compatible

Works in vacuum state.  
(TC-FR custom design model)

### Durable Robot Cable standardized

Enhanced durability against bending that occurs in moving parts with frequent repetitive motion, such as industrial robots and machine tools. High stability and reliability are realized.

### Plug & Play with built-in TEDS

With the TD series indicators, equivalent input calibration, likely to forget in manual setting, can be performed automatically and help prevention.  
(See the reverse page for detail on TEDS)

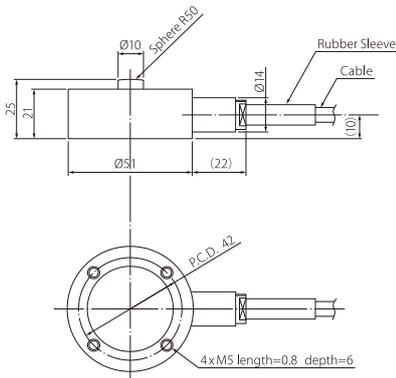

### Specifications

Type	Compression Load Cell						Tension Load Cell
